CSP 595 - Enterprise Web Application - Assignment 3

This is the Login Page of my Assignment.

Currently accessible Logins :

Admin login: **Username: admin || Password: admin** Salesman

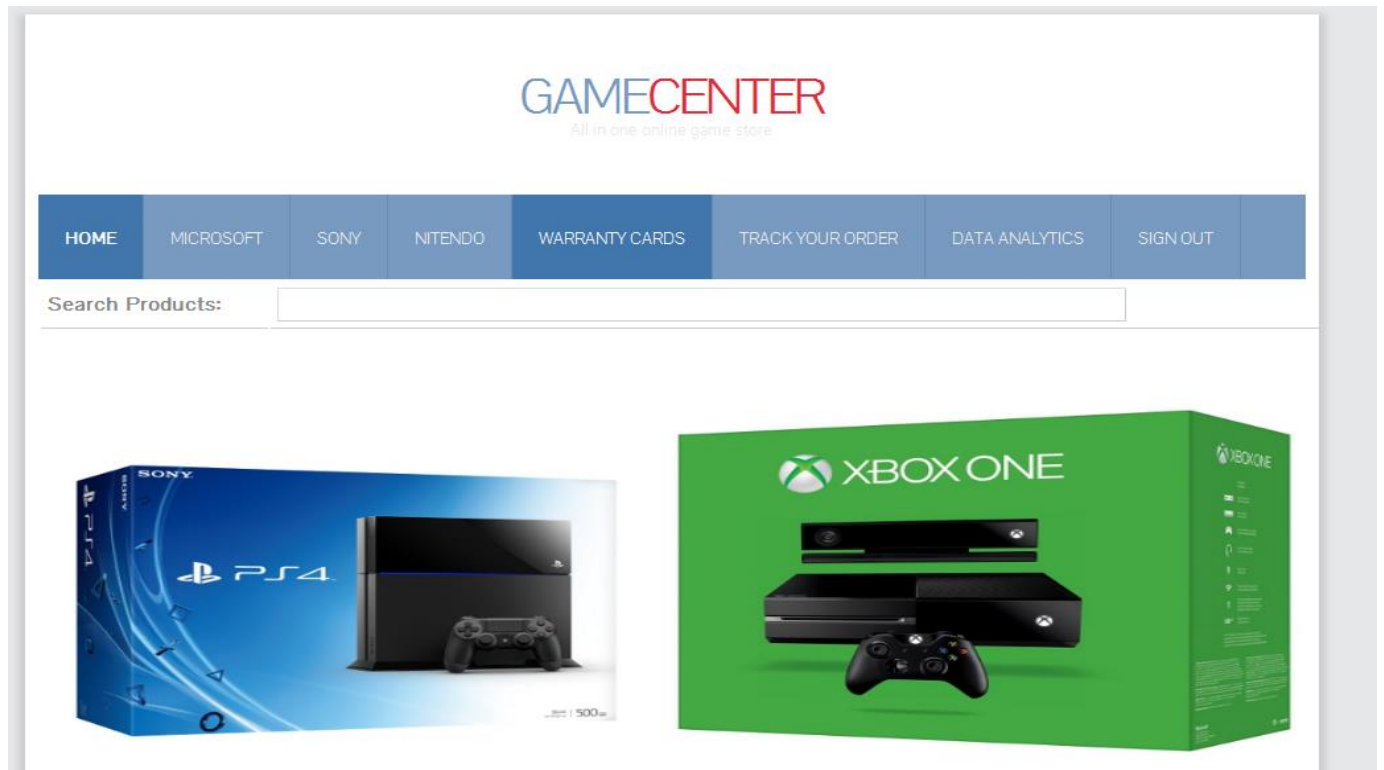

login : **Username : salesman || Password: pass** Customer

logins : **Username : kedar || Password: kedar**

- Currently the above mentioned logins are present which can be used for testing.

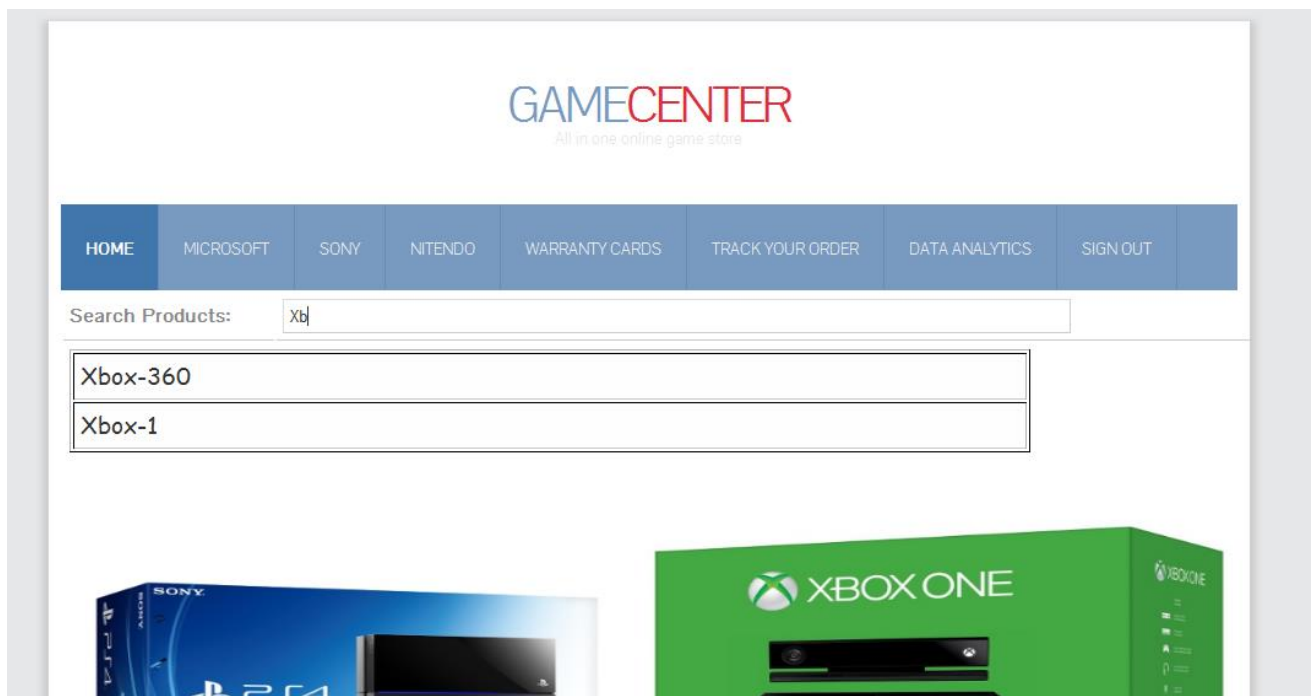

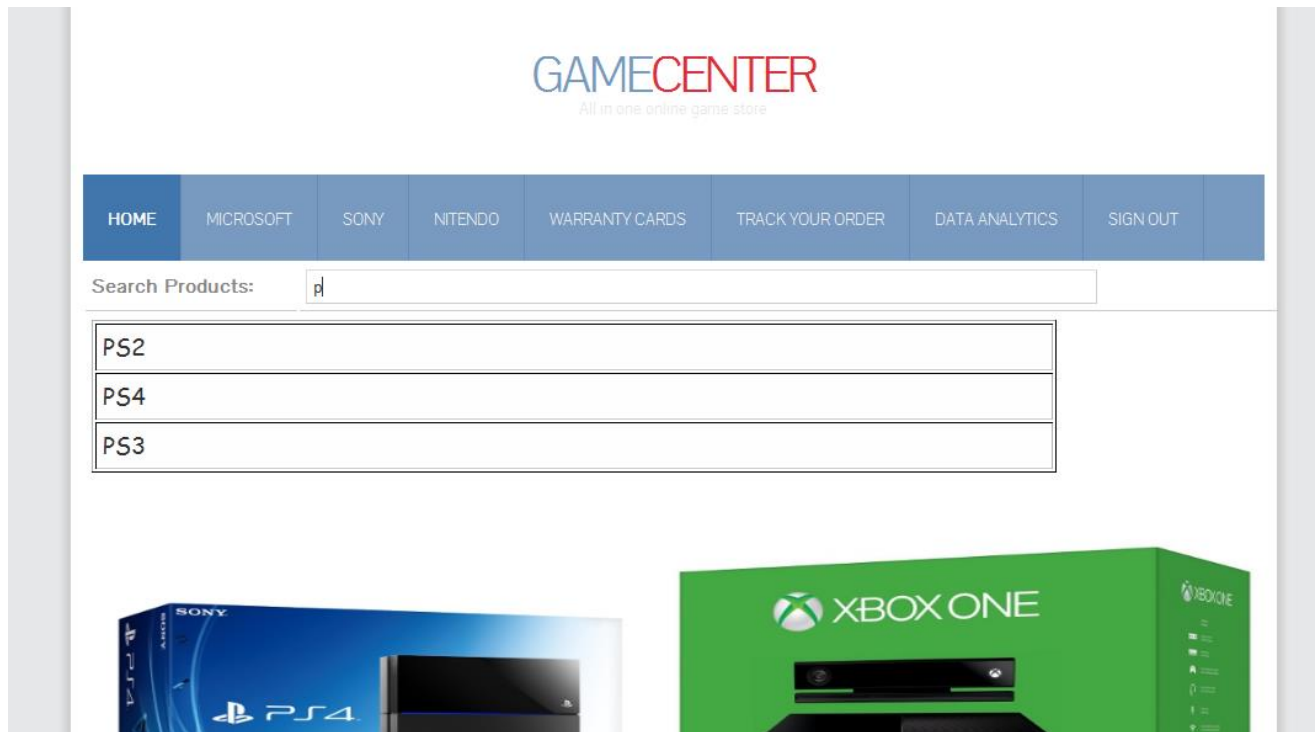

## Screenshot 2

- This is the search bar implemented for the autocomplete functionality feature.

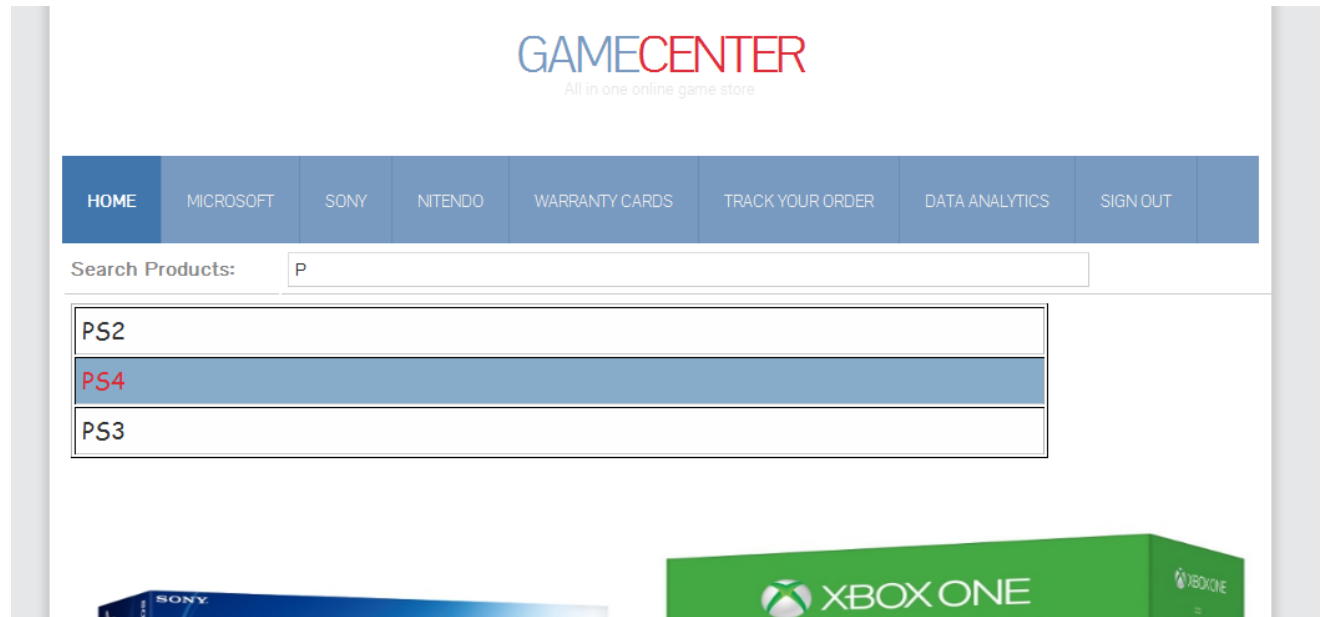

### Screenshot 3 –(AutoComplete feature with some keywords)

- This is a screenshot of autocomplete feature working when any keyword is typed.

## Screenshot 4

- When any product is clicked, the page redirects to the respective product page.

## Screenshot 5

- When any product from the list is clicked, user can reach to that particular product page.
